

## CNBC Report for 2019 Annual Convention Regional Ministries | Dwight Huffman

---

I bring you greetings from the Regional Ministry Leaders from across Canada. The Father is doing some amazing work in our churches. We are seeing new churches planted from healthy multiplying churches in many of our regions. Our desire to see a culture that doesn't distinguish between church health and church planting is producing a unity among our churches.

As I travel among our regions and meet with Pastors, they are feeling valued and supported by other churches and pastors. Our strategy to bring "Refresh, Equip" events is serving us well. Through our strategy of "Networking", many of our pastors and families are experiencing joy and health. Through our strategy of encouraging pastors to "give themselves away" in another part of the world, we've seen more pastors partnering to have a mission experience. This is also revitalizing their ministries at home.

In Alberta, we have made the transition to CNBC North and CNBC South. Each has a functioning leadership team giving leadership in each of our four foci. On Oct 5<sup>th</sup> of this year, we will have a North and South Annual Meeting running simultaneously in Edmonton and Calgary.

We are currently looking to replace the RML role in Atlantic Canada as Derek Jones has resigned from that role.

Judy and our extended family are doing well. On the other hand, I have had some health issues since November. Some the doctors are continuing to explore and others I hope to have fixed this summer.
